

Your travelers' luggage, hotel to hotel.

A luggage delivery service covering the whole of Japan. One request covers everything — FIT (1–9 pax) and groups (10+ pax) alike.

THE CURRENT PROCESS

- You contact each hotel individually to arrange pickup
- Each hotel has to handle luggage after checkout
- Tracking depends on the departing hotel
- Guest enquiries come back to you, not to the carrier

WITH BONDEX

- You simply hand over the itinerary
- BondEx handles pickup, delivery, tracking and guest enquiries
- Every item visible on a single screen
- BondEx takes responsibility for loss or damage

The hotel-by-hotel coordination disappears.

BondEx issues the waybill and sends it to your office or directly to the hotel. No new contract or system integration is required on the hotel's side.

HOW IT WORKS

01

Leave it at the front desk

At checkout, guests simply leave their luggage with the front desk.

02

BondEx takes it from there

Pickup, delivery, status tracking and guest enquiries — all handled by us.

03

Collect it at the next hotel

The luggage is already waiting when guests check in.

Nationwide

Hotel to hotel, anywhere in Japan

FIT and groups

From 1–9 pax to groups of 10 and above

Multilingual

English, Chinese, Italian, French and Spanish

How you operate it

From booking through to invoicing, designed to fit into the way you already work.

01 Every item on one screen

Track the status of all luggage in real time. Itineraries and name lists can be uploaded as Excel or CSV, so multiple bookings are registered at once.

02 A luggage list generated from your group manifest

Upload your group name list and we generate a list showing exactly who has handed over how many suitcases — so your tour leader can keep track on the ground.

03 Offer it under your own brand

The voucher handed to guests carries your logo and brand colours. To the guest, it is your service from start to finish.

04 Guests track their own luggage

A QR code on the voucher shows the current delivery status in real time, in their own language — so you are not fielding the questions.

05 Liability and billing

BondEx handles any loss or damage. Billing is consolidated monthly with downloadable statements. Piece counts are confirmed at pickup, so additional bags picked up mid-itinerary can be settled afterwards.

ABOUT THE WAYBILL

BondEx issues the waybill. We can send it to your office or directly to the hotel, made out to the traveler. No new contract or system integration is required on the hotel's side.

PRICING

We propose rates according to your volume and how you intend to use the service. Please contact us for a quotation.

NEXT STEP

A trial can start straight away. Send us an itinerary and we will issue the vouchers for you to review.
